Phone: +213 551 867 896 | Portfolio: okellodev.us.kg

Professional Summary

Result-oriented System Architect with a strong foundation in full-stack development, network automation, and security engineering. Proven track record in designing scalable architectures, from AI-driven translation services to comprehensive therapist booking platforms. Certified in Cisco DevNet and AWS, with a deep understanding of CI/CD, Docker, and infrastructure optimization. Passionate about "vibe coding"—blending creative experimentation with high-performance engineering to deliver exceptional software products.

Technical Arsenal

Languages:	Python (PCEP Certified), JavaScript, Node.js, HTML5, CSS3, SQL
Frameworks:	React, React Native, Expo, Django, FastAPI, Tailwind CSS
Cloud & DevOps:	AWS (Fargate, ECS, Containers), Docker, Git, CI/CD Pipelines, Linux SysAdmin
Specialization:	Network Automation (Cisco DevNet), API Design, Infrastructure as Code, Security

Professional Projects

Stretch Therapy — Lead Architect & Developer

stretchtherapykenya.site

Built a full-stack platform enabling automated scheduling and management for practitioners. Engineered a Python backend and integrated multiple payment gateways. Architected for scalability and high-availability.

Darja Translation Service — System Architect

AI-Powered NLP Solution

Developed a specialized service for Darja-English-French translation. Implemented AI models for dialect-specific accuracy and deployed using Docker containerization on Koyeb Cloud.

Guerison — Mobile Application Developer

React Native / Expo

Engineered a cross-platform mobile app featuring secure auth flows and real-time data sync. Optimized performance for low-bandwidth environments.

Verified Certifications

- **Cisco DevNet Associate:** Certified Network Automation & Programmability Professional
- **AWS:** Introduction to Containers & AWS Fargate Specialist
- **Cisco / JKUAT:** Advanced Cybersecurity & Network Defense
- **Python Institute:** PCEP - Certified Entry-Level Python Programmer
- **Web Development:** HTML Essentials & Modern CSS Architectures

Education

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Studies focused on Software Engineering, Information Security, and Distributed Systems.
